Launch of Project Phase 2c:
“Strengthening tsunami early warning in the North-West Indian Ocean region through regional cooperation”
Wednesday, 15 November 2023

Tsunami Ready and UN Ocean Decade

SAFE OCEAN

Not oceans and shores that do not have coastal hazards (i.e- Tsunami).

..... is coastal area and ocean that is understood, observed, can be predicted, and where the people can continue to interact with the sea and oceans for their livelihood and lifestyle without having the fear of coastal hazards (tsunamis), as they already have the awareness, knowledge, preparedness, skills, and abilities to safe themselves in case of an emergency (tsunami)

Implementation Plan for the UN Decade Tsunami Programme (TOWS WG 2021)

Contribute to achieving the societal outcome of A Safe Ocean with the aim of **making 100% of communities at risk of tsunami prepared for and resilient to tsunamis by 2030 through the implementation of the UNESCO/IOC Tsunami Ready Programme**

Tsunami Ready in Indian Ocean

The ICG/IOTWMS **encourages member states to commit to implement the UNESCO-IOC Tsunami Ready guideline and indicators** and promote open access to high-resolution near shore bathymetry and topography data for accurate inundation and evacuation mapping in support of Tsunami Ready communities (*ICG/IOTWMS Chair at the 53rd IOC EC*)

UNESCO/IOC Tsunami Ready Recognition Programme / UNESCO/IOC Tsunami Ready (TOWS WG 2022)

- Recommended that the IOC Executive Council at its 55th session consider approving the **establishment of the UNESCO/IOC Tsunami Ready Recognition Programme (UNESCO/IOC Tsunami Ready)**
- To advise countries that are currently in the process of **implementing Tsunami Ready, to now follow the MG74** when submitting/applying for Tsunami Recognition, and that MG74 will apply for all future applications.
- Establishment of the **Tsunami Ready Coalition**.
- ICG **Tsunami Information Centres (TICs) to facilitate the UNESCO/IOC Tsunami Ready Recognition Programme** in each region.

The UNESCO-IOC Tsunami Ready Recognition Programme

- Tsunami Ready Recognition Programme is a community performance-based programme that facilitates tsunami preparedness as an active collaboration of the community, community leaders, and national and local emergency management agencies.
- The main goal of the programme is to improve coastal community preparedness for tsunami emergencies, to minimise the loss of life, livelihoods and property, and to ensure a structural and systematic approach in building community preparedness.

- **STRATEGY:**

Be Aware,
Be Prepared

- **ACTION:**

National programmes
empower communities

Why Tsunami Ready ?

- An advance tsunami early warning system will not save life if the **community at risk does not have the knowledge and capacity to respond** to the early warning.
 - High risk of loss of life and property in coastal community with weak or no **community preparedness** for tsunami emergencies.
 - In **near field tsunami**, the community need to react and take action without official warning or guidance
 - Weak or **broken warning chain** to community.
 - Lack or **limited focus in community preparedness** for tsunami.

The Aims of IOC-UNESCO Tsunami Ready Recognition Program

The Tsunami Ready Recognition Programme is a **voluntary international community-based** recognition programme developed by UNESCO/IOC.

It aims to **build resilient communities through awareness and preparedness strategies** that will protect life, livelihoods and property from tsunamis in different regions

Tsunami Ready Community Recognition: 43 Communities

Caribbean (11 communities)

1. St. Kitts and Nevis (1)
2. Anguilla (1)
3. British Virgin Islands (1)
4. Grenada (2)
5. Haiti (1)
6. Antigua and Barbuda (1)
7. Barbados (1)
8. St. Vincent and the Grenadines (1)
9. Trinidad and Tobago (1)
10. Jamaica (1)

Pacific (21 communities)

1. Honduras (3)
2. Costa Rica (11)
3. Samoa (1)
4. El Salvador (2)
5. Guatemala (2)
6. Nicaragua (2)

Indian Ocean (11 communities)

- | | |
|-----------------------------|-------------------------------|
| 1. Venkatraipur India | 7. Kemadang, Indonesia |
| 2. Noliasahi, India | 8. Pangandaran Indonesia, |
| 3. Tanjung Benoa, Indonesia | 9. Mandalika, Indonesia |
| 4. Tambakrejo, Indonesia | 10. Purus, Indonesia |
| 5. Panggarangan, Indonesia | 11. Lolong Belanti, Indonesia |
| 6. Glagah, Indonesia | |

UNESCO/IOC Tsunami Ready Indicators

TSUNAMI READY INDICATORS

I ASSESSMENT (ASSESS)

- 1 **ASSESS-1.** Tsunami hazard zones are mapped and designated
- 2 **ASSESS-2.** The number of people at risk in the tsunami hazard zone is estimated
- 3 **ASSESS-3.** Economic, infrastructural, political, and social resources are identified

Understanding the Hazard and Risk

II PREPAREDNESS (PREP)

- 4 **PREP-1.** Easily understood tsunami evacuation maps are approved.
- 5 **PREP-2.** Tsunami information including signage is publicly displayed.
- 6 **PREP-3.** Outreach and public awareness and education resources are available and distributed.
- 7 **PREP-4.** Outreach or educational activities are held at least 3 times a year.
- 8 **PREP-5:** A community tsunami exercise is conducted at least every two years

Community Awareness

III RESPONSE (RESP)

- 9 **RESP-1.** A community tsunami emergency response plan is approved.
- 10 **RESP-2.** The capacity to manage emergency response operations during a tsunami is in place.
- 11 **RESP-3.** Redundant and reliable means to timely receive 24-hour official tsunami alerts are in place.
- 12 **RESP-4.** Redundant and reliable means to timely disseminate 24-hour official tsunami alerts to the public are in place.

Planning and Capacity

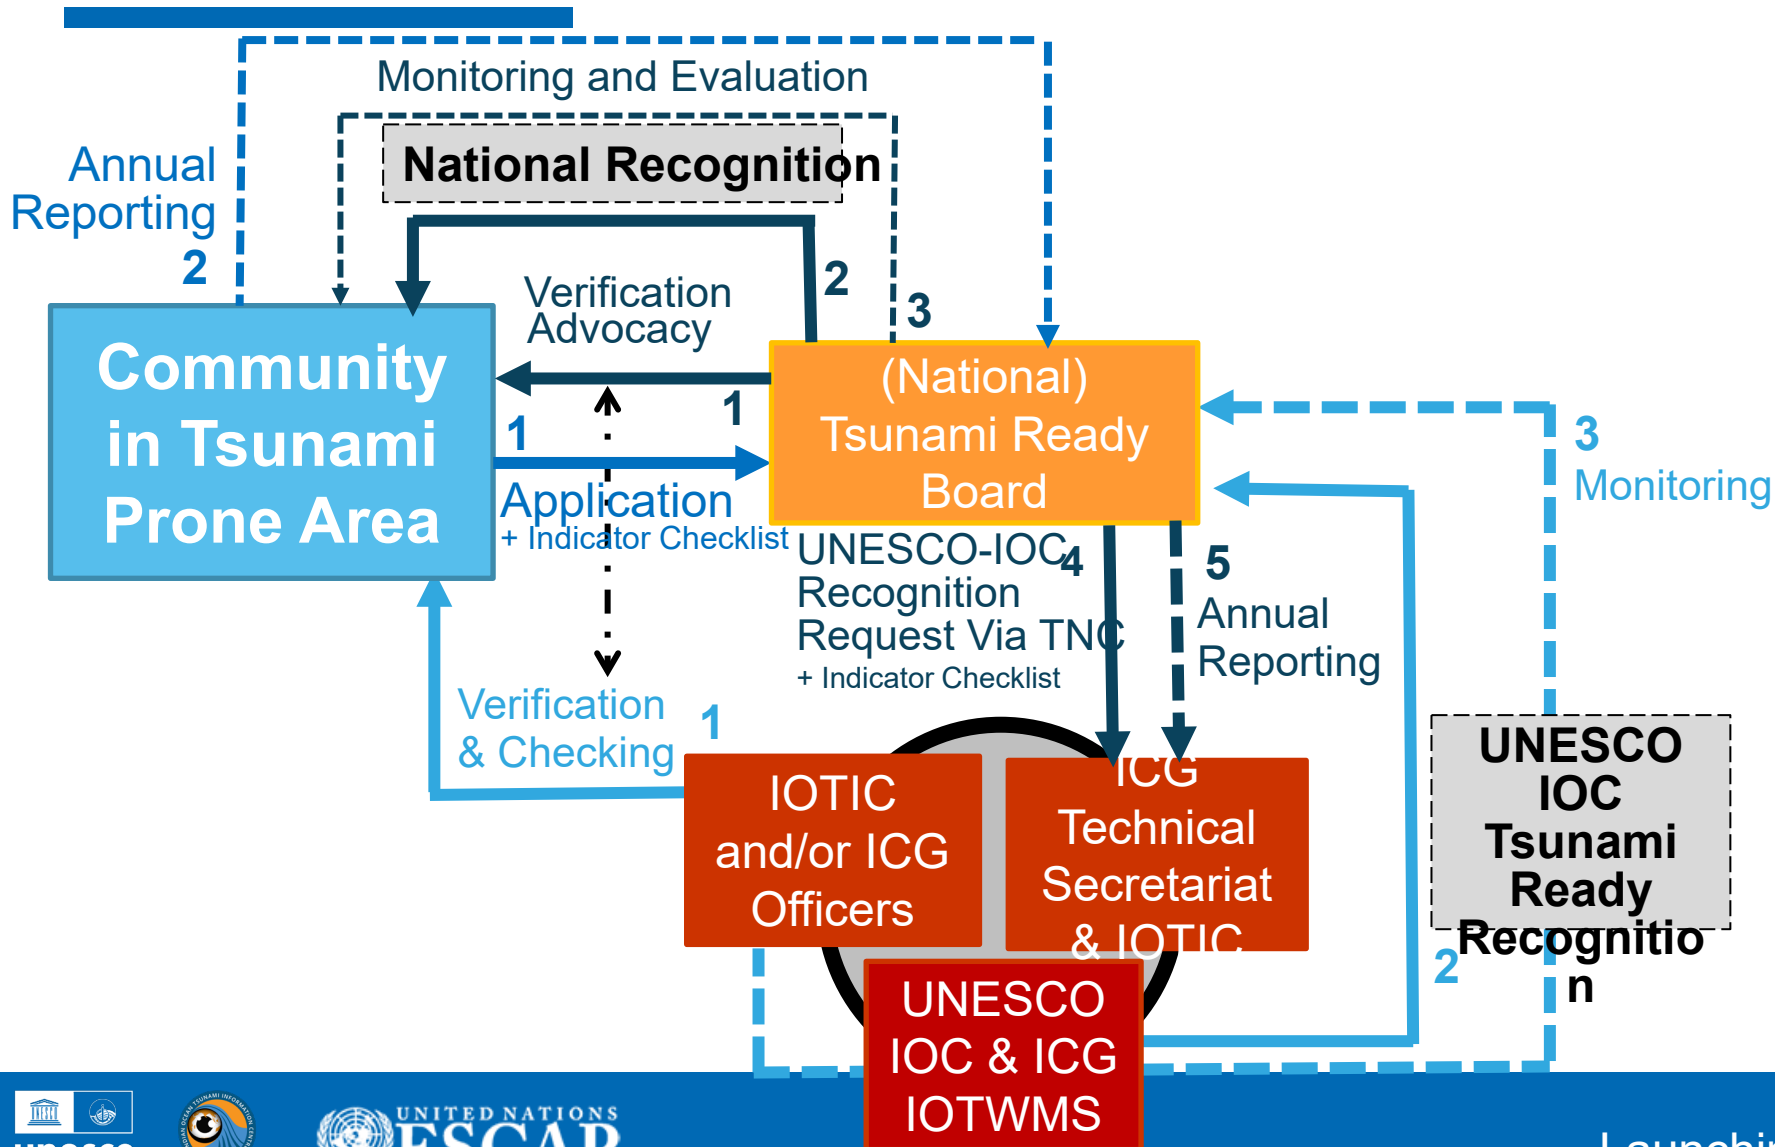

What is community?

- A community is a group of people who live in the same area (city, town, village, neighbourhood), includes its social and economic dimensions, its infrastructure, life-lines and supporting environmental systems.
- Scale of community is important. Its size (area, population), national governance structure, as well as its vulnerability, exposure, resources and capacity required, will determine how Tsunami Ready is implemented.

Cedeño, Honduras, Tsunami Ready Recognition Ceremony, February 2017. (Credit: ITIC)

Tsunami Ready Recognition Process

Why apply for Tsunami Ready recognition?

1. To recognize the effort and achievements of the community
2. To motivate the community to continue to improve its level of preparedness
3. To enhance the sustainability of preparedness in the community
4. To motivate others to follow the example of good practices

The Benefit of Tsunami Ready Recognition

- ❑ Strengthens tsunami preparedness of coastal communities
 - Improved **assessments of Hazards**, Risk, Inundation, and Evacuation
 - Improved **early warning systems/warning chain**, EOP, and EOC
 - Improved/Increases **public awareness, understanding of tsunami threat, build preparedness, and ensures exercises.**
- ❑ Strengthen **preparedness for other hazards**
- ❑ Encourages a consistent and sustainable approach
- ❑ Contributes to the UN Decade Program
- ❑ Received **Recognition** from IOC UNESCO as Tsunami Ready Community

Tsunami Ready Recognition in the Indian Ocean

INDIA:

1. Venkatraipur
2. Noliasahi

INDONESIA:

1. Tanjung Benoa Village - Badung
2. Glagah Village - Kulonprogo
3. Kemadang Village - Gunung Kidul
4. Pangarangan Village - Pangarangan
5. Pangarangan Village - Lebak
6. Desa Tambakrejo - Malang
7. Kuta Mandalika Village - Lombok Tengah
8. Purus Village - Padang Barat
9. Lolong Belanti Village - Padang Utara

- ✓ 11 communities now Tsunami Ready recognized
- ✓ Australia, Iran, Maldives, Oman, Pakistan, Seychelles, Sri Lanka, Thailand, and Timor Leste planning to implement
- ✓ **More support required reach Ocean Decade Goal 100% communities at risk Tsunami Ready**

Tsunami Ready for critical infrastructure

Implementing Tsunami Ready to the Critical Infrastructures

- ✓ Tsunami Ready for critical infrastructure eg Airport Tsunami Ready in Indonesia, port, and industrial zones

I Gusti Ngurah Rai Airport, Bali

Yogyakarta International Airport

Cilegon Industrial Area

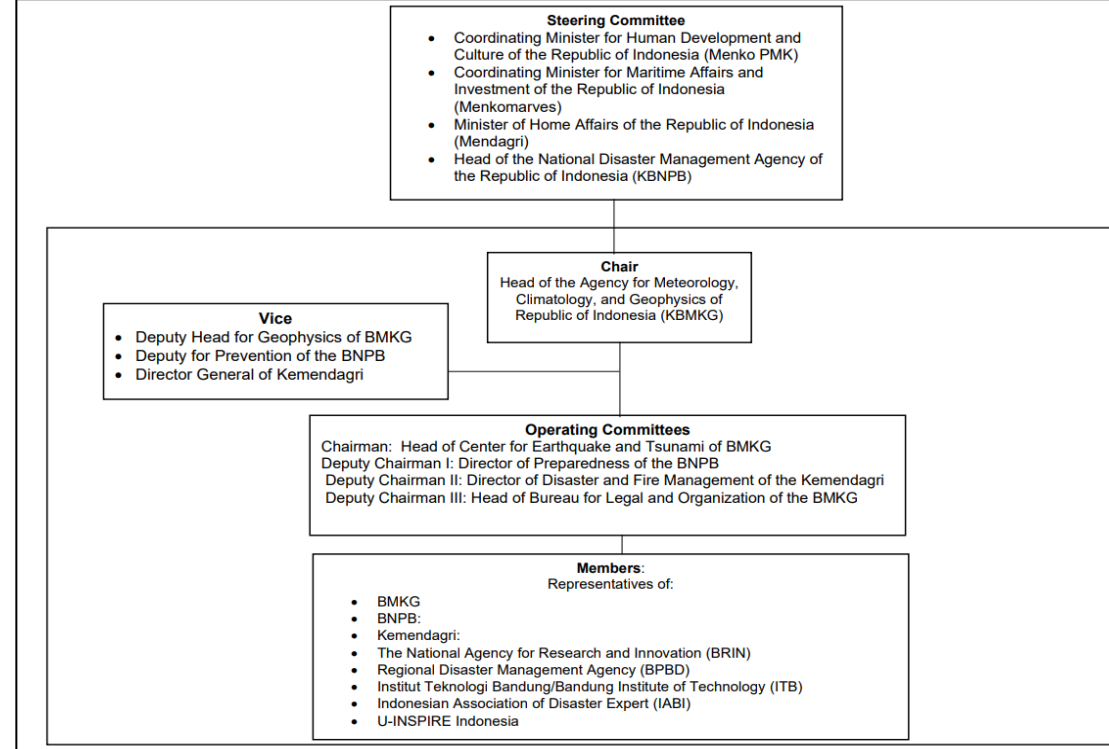

Port Of Benoa, Bali

National Tsunami Ready Board

1. Coordinating the implementation of the Tsunami Ready Community through advocacy, promotion, and socialization
2. Ensuring consistency in the implementation of guidelines and UNESCO-IOC Tsunami Ready indicator
3. Checking and providing direction on assessments Tsunami Ready Community on the national level for the proposed coastal communities prone to tsunami;
4. Review, evaluate, and approve requests Tsunami Ready Community Recognition at the national level in accordance with UNESCO-IOC Tsunami Ready guide and indicators
5. Monitor, collect reports, and evaluate Tsunami Ready Community which has received recognition annually;
6. Recommend the Tsunami Ready Community to gain UNESCO-IOC Tsunami Ready Recognition,
7. Monitor and report on annual activities Tsunami Ready Community which has been recognized as UNESCO-IOC Tsunami Ready Community to ICG/IOTWMS;

UNESCO/IOC Tsunami Ready Tools

UNESCO/IOC Tsunami Ready Website

The screenshot shows the homepage of the UNESCO/IOC Tsunami Ready Programme. At the top, there is a navigation bar with links for UNESCO, IOC, IOC Tsunami, NOAA, US Tsunami, and NOAA Tsunami. The main header features the ITIC logo and the text 'International Tsunami Information Center' against a background of a tsunami wave. Below the header, there is a breadcrumb trail: 'You are here: Home > Intergovernmental > UNESCO/IOC Tsunami Ready Programme'. A search bar is located on the right side of the header. The main content area is divided into three columns. The left column contains a 'Home' section with a 'Contact ITIC' link, followed by 'General Info' with links to 'World Tsunami Day', 'Hawaii Information', 'American Samoa Info', 'About Tsunamis', 'Am I in Danger?', 'What to Do?', 'Aware, Educate', 'Photo, Video, Graphic', 'Quick Info - Media', 'FAQs', and 'About ITIC'. Below this is 'Technical Info' with links to 'Current Warnings', 'About Warnings', 'Tsunami Events', 'Earthquake Monitors', 'Sea Level Monitors', 'Research', 'Meetings', 'Tools & Products', 'Library', 'ITST Tsunami Survey', 'Marine Ports Guide', and 'Vertical Evac Guide'. The middle column features the 'UNESCO/IOC Tsunami Ready Programme' section with a list of regions: Caribbean, Pacific, Indian Ocean, North Atlantic and Mediterranean, Background, and Pilot Programme. Below this is the 'UNESCO/IOC Tsunami Ready Recognition Programme' section, which includes a large 'Tsunami Ready' logo featuring a wave and a checkmark, and the UNESCO logo. The right column contains logos for UNESCO IOC and NOAA, a section for 'IOC Tsunami Information Centres' with logos for ITIC, CTIC, IOTIC, and NEAMTIC, and a section for 'ITIC CARIBBEAN OFFICE (ITIC-CAR)'. At the bottom of the right column, there is a 'Quick Links' section.
